

Over **25 Million people** came together at the **Maha Kumbh Mela** festival in Allahabad, India on **January 24th**, 2001. You are all invited to check our site for info on this, the largest gathering of humanity in history.

Next BIG mela will be in 2013... will you be there? I'll be going back again!

We camped by the Ganges river and met Saints and Sages that live high in the Himalayan Mountains. These guys only come down from their mountain dwellings every 12 years. Like the 117 year old yogi!
